Q.89 The following pie diagram shows information about the number of students who like a particular type of breakfast items prepared by hostel chef. The number of total students in the hostel is 3200.

Which of these statements is NOT true?

Ans 1. Only 160 students like Eggs for Breakfast

2.

The number of students liking Plum Cake for Breakfast is the same as the number of students liking Cornflakes.

3.

The ratio of students liking Idly to students liking Eggs is 3 : 1

4.

The difference between the number of students liking Cornflakes and Plum Cakes and the number of students liking Bread and Eggs is greater than the number of students who like Idly.
